Education

Indian Institute of Information Technology, Sonapat

Sonapat, Haryana

CSE, B.Tech | CGPA: 8.87

12/2020 – 07/2024

Experience

Acciolbis | Full Stack Developer Intern

Remote | 06/2022 – 07/2023

- Led frontend design and development for application, leveraging cutting-edge technologies like **React JS, Sass, and JavaScript**; optimized project structure resulting in 20% faster development time.
- Build CRUD APIs in Backend for some of the features and integrated third party mailing and calendar service using like **Google and outlook in Node JS, Redis** and deployment using **AWS**.
- Implemented CI/CD pipelines for frontend deployments, orchestrated agile methodologies and led daily stand-ups, driving collaboration among cross-functional teams; resulting in a 30% reduction in time to deliver new features and enhancements.
- Consistently adopted new skills and rapidly integrated emerging technologies to enhance project features and overall performance, resulting in a 25% improvement in project efficiency.

Meru Accounting | Web Developer Intern

Remote | 12/2021 – 07/2022

- Developed and integrated two pivotal sections of the application frontend with backend APIs, fostering a unified user experience.
- This effort primarily leveraged **React and Material UI**, contributed to a 25% increase in project completion.
- Collaborated with a cross-functional team of three members to successfully develop the application, resulting in a 20% reduction in development time.

Madiee Games | Full Stack Developer Intern

Remote | 11/2021 – 02/2022

- Built the frontend for a web-based business development game using **React and Sass**, Implemented Canvas logic and mathematical calculations.
- Orchestrated seamless collaboration with the design team to implement weekly updates, resulting in a 20% faster development of the project.

Skills

- **Programming Languages:** C, C++, JavaScript, Solidity
- **Libraries/Frameworks:** React JS, Next JS, Node JS, Express JS, Sass, Ether JS, Tailwind CSS
- **Tools/Platforms:** Git, Figma, Postman, VS Code, GitHub
- **Databases:** MySQL, Firebase, MongoDB
- **Relevant Coursework:** Data Structures and Algorithms, Operating Systems, Computer Networks, Blockchain, Machine Learning

Projects

My-Vote | College-Project

- A decentralized voting application built over **Ethereum** for general voting purposes.
- Tech Stack Consisted of **Next JS, Web3 JS, Solidity, Tailwind CSS**.

Open-Chat | Self-Project

- Built an open chat application with features including voice notes and images sharing, also a real time like feature.
- Secure User authentication and authorization using **Firebase** through **Google** and **Facebook OAuth**.
- Tech Stack consist of **React JS, Firebase, CSS**.
